Instructions:

- Revise Integers & Fractions -Decimals Chapter.
- Do 5 questions daily from NCERT EXEMPLAR (from Integers & Fractions-decimals chapter) in Revision Register daily.
- Read about Sikkim- Drenjong (Tibetan Name) means Valley of Rice and solve the given question in Mathematics Practical file.
- Use Graphs to draw bar graph and paste on the blank side of your activity file.

Find the top 10 tourist destination of Sikkim and study their climatic conditions. Collect the temperature and rainfall recorded in May & June .After collecting data ,make a frequency distribution table for the data and represent it as a bar graph. Draw two Bar graphs, one for May and the other for June.

Hint: Frequency Table

S.NO	PLACE	RAINFALL in mm(MAY)	RAINFALL in mm(JUNE)	TEMPERATURE (MAY)	TEMPERATURE (JUNE)
1.	Gangtok				
2.	Nathula Pass				
3.					

Answer the following questions:
   a) Name the coolest and warmest place in Sikkim(out of the 10 listed by you).
   b) Which place receives the maximum rainfall in June?
   c) Which of these places would you like to explore and why?
      What is the best time to visit this place based on the temperature ?
   d) Name the Highest Lake of India present in Sikkim .
