

## SUMMER HOLIDAY HOME WORK

### SOCIAL SCIENCE ; CLASS –V

Q.1. In the given world map, locate the following places.

A). **smallest continent**; B). **coldest continent**; C). **deepest ocean**; D). **Caspian sea**; E). **Indian ocean**.

**Q.2. Show the important latitudes on a globe. (Page257)**

#### **How to Make?**

Take a small ball with a radius of 3cm to 5cm. Take different colours of wool and use it around the ball to mark the different latitudes.

Eg. You can use yellow colour for Equator; Red colour for Tropic of Cancer and Tropic of Capricorn, etc. You can inter-change the colours. Use Fevicol to stick.

Altogether there should be three colours used for marking the important latitudes on the globe. The project will be graded.

**THANK YOU AND ENJOY YOUR HOLIDAYS!**
